## Program Scripture

### Isaiah 32:8

*"But the noble make noble plans, and by noble deeds they stand."*

*This scripture highlights key themes of character, intentionality, and action.*

#### 1. "The noble make noble plans"

- **Definition of Nobility:** "Noble" refers to those of high moral character, not necessarily status or wealth. It emphasizes integrity, honor, and virtue.
- **Intentional Planning:** Noble individuals are intentional in their actions. They plan with purpose, aiming to uphold values that benefit others, not just themselves. This aligns with the S.Q.U.I.R.E Program's mission to teach young men to lead with service, foresight, and responsibility.

#### 2. "And by noble deeds they stand"

- **Action over Words:** True nobility isn't just about making plans; it is demonstrated through deeds. Action solidifies character and purpose.
- **Resilience Through Righteousness:** The noble stand firm because their actions align with their principles. This teaches young men that their strength and legacy come from their consistent, righteous actions.

### Relevance to the S.Q.U.I.R.E Program

- **Noble Plans:** Young men are encouraged to think critically and set meaningful goals that benefit their families and communities.
- **Noble Deeds:** This program emphasizes actionable service—through volunteering, leadership development, and personal growth—teaching participants that their legacy is built on what they do, not just what they say.
